BL2500 ECP Series

easicodepro

10 Second Code Set

The BL2500 ECP series is a direct upgrade to our standard BL2000 ECP series keypads. These are all constructed with heavier duty, premium grade components made from stainless steel for the highest grade of engineering.

Each model in the BL2500 ECP series has been cycle tested to 100k operations and comes with the ECP "on the door" code change. These units are ideal for medium duty timber doors. Available with or without a holdback function as required on all of the ranges.

FEATURES

- On door code change
- Optional holdback
- Cycle tested 100k+
- Over 4000+ combinations
- Reversible on site
- Optional code change disabling plug

Series Options

- **Tubular latch (BL2501 ECP /BL2521 ECP)**
  50mm/ 60mm /70mm backset tubular latch with 12.5mm latch bolt and anti-thrust pin to prevent forced entry

- **Holdback option (BL2501 ECP)**
  Optional holdback available allowing the inside handle to remain held open, allowing free access without the need to operate the handle

BL2501 ECP
Knurled knob keypad with holdback paddle handle and tubular latch

BL2521 ECP
Back to back knurled knob keypads with a tubular latch
