Connect with Airbnb

1 Connect with Airbnb

Connecting the lock with Airbnb automates the generation of PIN codes for your Airbnb guests based on their approved reservations.

Here are the steps to activate it

Step 1: Connect to your Airbnb

Under **[Account Settings]**, select **[Connect with Airbnb]**, then tap **[OK]**.

Step 2: Connect to Airbnb listings

Under **[Reservations]**, tap the **[+]** icon to select a home to connect to.
Select Airbnb Listing and the Check-in and Check-out times to associate.

Note:
- Emails with PIN code will be sent to the guest between 1 to 48 hours before check-in time (configurable).
- PINs will only be valid between the check-in and check-out times.

Step 3: Change Check-in and Check-out time

Under **[Add and Manage]**, select **[Manage Properties]** followed by the listing to view or edit its details.

Notes:
- If the access mail has not been sent, changing your check-in/check-out time via the app modifies the start and end time of the PIN codes to be shared with your guest.
- If the access mail has been sent, changing these details will only affect the next reservation.
- Changing these details on the igloohome app does not update the check-in/check-out time on the listing on the Airbnb website.

---

2 Disconnect Airbnb

Should you prefer to generate PIN codes for your guests manually, you may disconnect your Airbnb listing from the igloohome home listing with the steps below.

1. Under **[Reservations]**, disconnect all the listings (if any).

2. Under **[Account Settings]**, select **[Disconnect with Airbnb]**.

Should you wish to completely disconnect your Airbnb account from your igloohome account, make sure that all your Airbnb listings have been disconnected in the above step, then go to:

Airbnb Host Website > Connected Apps > Select igloohome to disconnect
