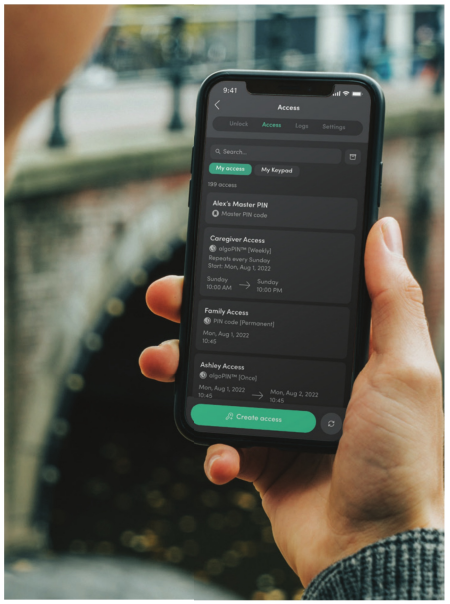
Deadbolt Go

Simple, Smart, Secure.

Unlock a world of freedom and security with the Deadbolt Go. Grant access to anyone, anytime or choose to restrict it to those you trust, all with a single touch. Rest easy with security features that keep your home secure at all times.

UNIQUE FEATURES



One Touch Access

Roam key-free, all you need is your fingerprint.

Share Access from Anywhere

Our algoPIN™ technology allows you to generate a PIN code from anywhere in the world and share it with anyone for instant access.

Certified Secure

With an ANSI / BHMA A156.40 BB rating your home and loved ones are safe & secure.

Apple Watch Integration

Use your Apple Watch to unlock via Bluetooth®. Works with watchOS 7 and up.

Easy Installation

No need for a handyman, all you need is a screwdriver.

Physical Keypad

Accessible, tactile buttons built for zero-error input.

Compatible ecosystem products

Sold separately.

Bridge
EB1

Take your lock online with the Bridge.

Key Fob
IEF1

Unlock with just one click.

A World Without Keys

PRODUCT FEATURES

Auto Lock
Automatically relocks after a selectable delay to give you greater peace of mind.

Auto Unlock
Your door automatically unlocks when you return home. Never fumble with keys again.

Emergency Jumpstart
Easily jumpstart the lock with a phone or powerbank via Type-C cable if batteries are drained.

Low Battery Alert
Intuitive audio and visual alerts will prompt you to change the batteries when it runs low.

Decoy PIN Code
Heighten security and throw off onlookers by entering random digits before your actual PIN code.

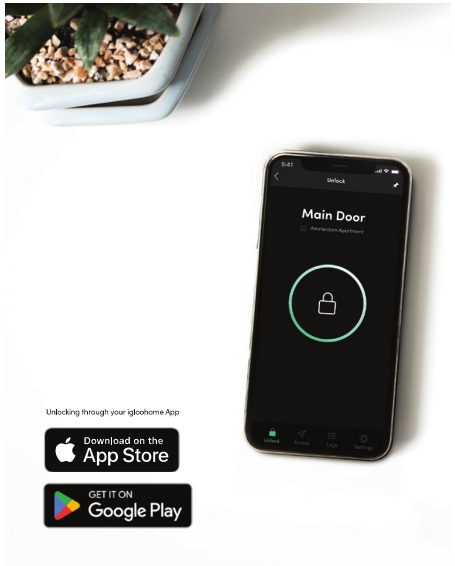
Volume Control
Adjust the volume according to your preference. Select from levels 0 (mute) to 6 (loudest).

Security Lockout
Keypad is disabled after several incorrect access attempts to ensure your property is always secure.

Tamper Alarm
The lock will sound an alarm if it is being pried from the door to alert and deter potential tampering attempts.

Obstruction Alarm
The lock will sound an alarm if the bolt tongue cannot be extended or retracted fully to alert the user of any obstructions.

SOFTWARE FEATURES



We're all about convenience.

Set up, operate and manage your igloohome devices with the mobile app. We're putting access in the palm of your hands.

Available on the App Store and Google Play for free!

More than just a lock.

Customised workflows are easy.
You want it? We got it. Our APIs and SDKs are available on igloooaccess for you to create custom access workflows with the lock.

One lock for all your lifestyle needs.
Integrate with third-party service providers on igloooconnect. We're always growing our network to offer new and innovative ways to share secure access to your lock.

Powered by our unique algoPIN™ technology.

No need for key handovers, or having guests to download an app to receive time-sensitive PIN codes. It's total freedom from needing a WiFi connection for your lock to work.

Grant access remotely for every visitor and guest. These can be created on the go with our innovative algoPIN™ technology. You can simply share the codes via iMessage, WhatsApp, SMS, and more.

Kept in the loop.

Through the app, you can view activity logs to keep track of activity within your home.

Activity logs are updated when you sync your app and the lock in Bluetooth® range. Bluetooth® unlocks are updated in real-time remotely.

You can stay in the loop 24/7 with the Bridge. View all activities on demand when you decide to take your lock online.
**Wi-Fi ® connection is required.*
